2. The board shall promulgate reasonable standards and rules that identify and describe the required technical knowledge and skill of fitting hearing instruments necessary to prepare each applicant for licensure by testing. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

2. After the filing of such complaint, the proceedings shall be conducted in accordance with the provisions of chapter 621, RSMo. Upon a finding by the administrative hearing commission that the grounds, provided in subsection 2 of section 346.105, for disciplinary action are met, the board may, singly or in combination, censure or place the person named in the complaint on probation on such terms and conditions as the board deems appropriate for a period not to exceed five years, or may suspend, for a period not to exceed three years, or revoke the license or certificate.

3. The board shall maintain an information file containing each complaint filed with the board relating to a licensee. The board, at least quarterly, shall notify the complainant and licensee of the complaint's status until final disposition.

The student must be under the direct supervision of a registered supervisor. Direct supervision means the licensed hearing instrument specialist is on the premises where the patient is being treated and is quickly and easily available and the patient has been examined by a licensed hearing instrument specialist. Such students shall not identify themselves as a "hearing instrument specialist," "hearing instrument specialist in training," or a "temporary permit holder."

(6) The following procedures and requirements apply to the practical examination:

(A) It shall be the responsibility of the applicant to furnish all equipment needed. In order to ensure the integrity of the practical portion of the examination and that it adequately tests the applicant's abilities, the board or its approved vendor may determine what equipment an applicant is permitted to use and may prohibit the use of any particular equipment containing memory storage or automated testing procedures, unless it can be demonstrated and verified that the memory can be erased or the feature deactivated. Equipment shall be in good working order as evidenced by a receipt of annual calibration of the audiometer. Failure to have the necessary equipment will be sufficient reason to disallow the applicant the opportunity to take the practical portion of the examination and cause forfeiture of the examination fee. If the applicant wishes to take the next scheduled practical portion of the examination, the applicant must reapply and pay the practical examination fee; and

(B) The practical portion of the examination may be conducted at the discretion of the board or its approved vendor either using simulators or live subjects for all or part of the examination, except that all persons taking the examination on a specific date shall be tested in the same manner. A time limit may be imposed for any part of the practical portion of the examination provided that: 1) this time limit is established by the board or its approved vendor prior to the examination; and 2) that it is applied uniformly.

(7) Requirements for Passing the Written Examination.

(A) The board or its approved vendor shall determine the passing score according to the standards of the examination.

(B) If the applicant fails the written portion of the examination, the applicant shall retake the entire written examination.

(8) If the applicant fails one (1) or more portions of the practical examination, the applicant shall retake the entire practical examination upon payment of the practical examination fee.

(9) An applicant who fails the practical examination and two (2) subsequent re-examinations shall be disqualified from retaking the examination a fourth time, until meeting with the board, presenting a written plan for passing the examination, and obtaining the board's approval for retaking the examination. In the case of a hearing instrument specialist in training, the current registered supervisor, as defined in section 346.010(15), RSMo, must be present at the meeting with the board.

(B) Misrepresent, either directly or by implication, the process for review of the performance of a hearing instrument specialist in training.

20 CSR 2165-3.020 Deceptive Practices

PURPOSE: *This rule protects the public by requiring full disclosure of the type and extent of the relationship between the licensee and the consumer.*

(1) It shall be an unfair and deceptive practice to engage in bait advertising as defined in Chapter 407, RSMo. In determining whether there has been a violation of this rule, consideration will be given to acts or practices that demonstrate that the advertising offer was not made in good faith for the purpose of selling the advertised product or service, but was made for the purpose of selling a product or service other than the product or service offered to the prospective purchaser.

(2) It shall be an unfair and deceptive practice for the licensee to misrepresent—

(A) The manufacturer, model, quantity, price, terms of sale, type, performance, fit, benefits, or resistance to climatic conditions;

(B) Any service or adjustment offered, promised, or to be supplied to purchasers of any product;

(C) Any material fact pertaining to the manufacturer, distribution, or marketing of any product;

(D) The scientific or technical knowledge, training, experience or other qualifications of the licensee, or of his/her employees, relating to the selection, fitting, adjustment, maintenance or repair of any product;

(E) The repair ability, including the cost thereof, or the adequacy of a prospective purchaser's own hearing instrument or ancillary equipment; and

(F) For the purpose of this rule "misrepresent" shall mean making misleading, deceiving, improbable or untruthful representations, or in any other material respect, regarding the character, intent, or type of business.

(3) It shall be an unfair and deceptive practice for the licensee to misrepresent in advertising or otherwise misrepresent that a hearing instrument has a guarantee, warranty, or promise similar in nature without a clear and conspicuous disclosure of—

(A) The nature and extent of the guarantee;

(B) Any material conditions or limitations in the guarantee which are imposed by the guarantor;

(C) The manner in which the guarantor will perform the guaranteed services; and

(D) The identity of the guarantor. The necessary disclosure requires that any guarantee made by the licensee which is not binding upon the manufacturer must clearly state that the guarantee is offered by the licensee only.

(4) It shall be an unfair and deceptive practice for the licensee to represent, unless it is true, directly or indirectly through the use of any word or term in his/her corporate or trade name, in his/her advertising, or otherwise—

(A) That the licensee is a manufacturer of hearing instruments or devices, batteries, parts, or accessories; and

(B) That the licensee is the owner or operator of a factory or producing company manufacturing such products.

(5) It shall be an unfair and deceptive practice, for the licensee directly or by implication to—

(A) Omit disclosure that instruments have been used, or contain used parts. In such cases the licensee shall make full and non- deceptive disclosure of such facts in all advertising and promotional literature relating to the product, on the container, box, or package in which such product is packed or enclosed. The required disclosure shall be made by both verbal and written use of such words as "used," "secondhand," "repaired," or "rebuilt," whichever most accurately describes the product involved; and

(B) Misrepresent the identity of the rebuilder of the hearing instrument. If the rebuilding of the hearing instrument was done by other than the original manufacturer, the licensee shall disclose such fact whenever the original manufacturer is identified.

(6) It shall be an unfair or deceptive practice for the licensee to represent, either directly or by implication, through the use of words or expressions that any hearing instrument, device or part is hidden or cannot be seen unless such is the fact.

(7) The licensee shall not misrepresent, either directly or by implication, that batteries sold only by such licensee or bearing a specified brand, label, or other identifying mark, are the only batteries suitable for use in a particular type or make of hearing instrument or device when such is not the fact. It shall also be unethical to imply in any manner, that a hearing instrument does not need batteries when such is not the case.

(8) It shall be an unfair, deceptive practice or unethical conduct for the licensee to advertise or otherwise represent to prospective purchasers any statement which has the capacity and tendency or effect of misleading them into the belief that any hearing instrument or device, or part or accessory therefor, is a new invention or involves a new mechanical or scientific principle, when such is not the fact.

(9) It shall be an unfair or deceptive practice and unethical conduct for the licensee to—

(A) Represent or use any seals, emblems, shields, or other insignia which represent, directly or by implication, in any manner that a hearing instrument or device has been tested, accepted, or approved by any individual, organization, group, or association, unless such is the fact and unless the hearing instrument or device has been tested by such individual, organization, group, or association in such manner as reasonable to insure the quality and performance of the instrument in relation to its intended usage and the fulfillment of any material claims made, implied, or intended to be supported by such representation or insignia; and

(B) Make any other false, misleading, or deceptive representation respecting any testing, acceptance, or approval of a hearing instrument or device by any individual, organization, group, or association.
